Reasons for Allowance

1. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

a. Adachi (Japanese Patent Publication No. 1992-38016) teaches a synchronizing circuit including two parallel storage devices for synchronizing asynchronous signals and minimizing delay time. Under control of a synchronizing clock, the two storage devices store signal from an external bus. Adachi neither discloses the selectively of one of the two storage devices for storing the signals nor a dedicated control signal (not a clock signal) is used to control the storage devices.

b. Toda (U.S. Patent No. 5,796,660) discloses a plurality of latches connected in parallel for storing received data controlled by a control signal. Toda does not disclose the selectively of one of the plurality of latches for storing the data.

2. The following is an examiner's statement of reasons for allowance:

Applicant's claimed invention distinguishes over the prior art for the following reasons. The claims are allowable over the prior art of record because none of the references, either alone or in combination, discloses or renders obvious the semiconductor integrated circuit comprising data storage devices connected in parallel between a data output node and a data input node; a first transfer timing determining circuit for selecting one of said data storage devices and transferring the data on the basis of a first control signal representing that the data is outputted from a clock non-synchronous type circuit; and a second transfer timing determining circuit for

selecting one of said data storage devices and transferring the data stored in the selected one of data storage device to a clock synchronous type circuit, wherein the second transfer timing determining circuit transferring the data on the basis of a second control signal synchronous with a clock signal.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
